Product Specification Sheet

Convertible Backpack Roller Laptop Case

Part #: TSB047CA

Product Description:

Targus' Convertible Backpack Roller Notebook Case combines the best of both worlds. At first glance you can see that it is a stylish, durable backpack with plenty of features but look a bit closer and you can see that it is also a roller. The Rolling backpack glides on in-line skate wheels and includes a contoured 2-tier telescoping locking handle for easy navigation. A protective rear flap holds the shoulder straps in place when using it as a roller, then lower the flap to cover the wheels for greater comfort when in backpack mode. For additional convenience it has a handle grip on the bottom of the case that allows for easy lifting into your car or an airline overhead compartment. This backpack includes a padded removable slip case for notebooks with up to 15.4" screens and a top front pocket with protective nyflex lining for iPod/MP3 players, PDA or sunglasses. The bottom front pocket features a business card holder, pen loops and key clip, while the main compartment offers plenty of file and accessory storage. Additional features include a large side pocket and a mesh water bottle holder.

Product Features and Specifications:

- **Easy Transport:** Handle grip on bottom of the case allows for easier lifting into the car or airline overhead compartment. Telescoping handle and in-line skate wheels for easy transport.
- **Organization:** The zip-down workstation features pen loops, key clip, business card holder and cell phone pocket. Nyflex lined CD/MP3 player pocket with line-out porthole for headphones. Two oversized storage compartments ideal for file folders, books and binders. Zippered mesh pocket ideal for accessory storage.
- **Comfort:** Padded handle and shoulder straps for easy transport.
